President's Message

Curtis Ray, Jr., CPD, FASPE

Welcome to October!

As we enter the final quarter of the year, October gives us an opportunity to pause, refocus, and prepare for a strong finish. The change of season brings a natural reminder that change can be positive and that there is still plenty of time to accomplish our goals before the calendar year comes to a close.

A Season for Growth

Fall is a season of transition, and it is the perfect time to evaluate where we are, celebrate the progress we have made, and identify opportunities for the months ahead.

As we move through October, consider taking a moment to:

- Review your goals and priorities for the remainder of the calendar year.

- Celebrate accomplishments and milestones.

- Reconnect with customers, clients, and colleagues.

- Identify opportunities for improvement and growth.

- Begin planning ahead for the holiday season and the new year.

October Inspiration

October brings plenty of opportunities to connect with our community and make the most of the season. Whether it's participating in a local event, supporting a worthwhile cause, enjoying time with family and friends, or simply taking a moment to appreciate the season, small moments of connection can make a meaningful difference.

November and December we will be collecting donations for the Joshua House located in Lutz, FL. Children's items are good and appreciated and well received plus financial giving is always well received and they are working on another home for children and families on the property. Keep an eye out for a flyer to come.

Looking Ahead

With the end of the calendar year approaching, now is the time to start thinking strategically about what comes next. A little preparation today can make the final months of the year more productive and less stressful.

I encourage you to stay focused, take advantage of new opportunities, and finish 2026 with purpose.

Thank you for being part of our ASPE family. Your Board of Directors appreciate your continued support and look forward to sharing more with you.

This month is the ASPE Convention and Expo in Oklahoma City. We are sending 5 delegates; Tim Collins, Todd Rebhahn, Marcy Bartges, Scott Whitney, & Gisun Sung. Sadly, I cannot attend as my surgeon has not cleared me to fly. This will be the first connection I have missed since my first one in 1990.

Looking forward to seeing you at the November dinner meeting.

A handwritten signature in black ink, appearing to read 'Curtis Ray', written in a cursive, flowing style.

Curtis Ray, CPD, FASPE

V.P. Education

Matthew Walker, P.E.

October 2026 ASPE WCF Education Newsletter

- 1) **NEW CEU CPD & CPDT CREDENTIAL RECERTIFICATION UPDATE:** This process has been updated due to user feedback to make the process simpler and easier. See below for details.
 - a) Every two years, you need a total of 240 points (24 hours / 2.4 CEUs) to fulfill the point requirements to recertify your ASPE credential. Up to 50% can come from external education providers. A minimum of 50% of your CEUs must be from ASPE, an ASPE Chapter, or an approved ASPE CEU Provider.
 - After logging in to ASPE Education, visit My Dashboard and then Certifications.
 - Enroll in the recertification (click the green Recertify button, then the blue Enroll button) and then proceed. Remember, you are able to upload credits at any time throughout the two-year recertification cycle.
 - If you have credits to submit, visit this page or click on the Fulfillments button. Once they are Approved, they will appear on your Transcript and count toward your recertification.
- 2) Does anyone have a school either elementary, middle, or high school that has an opportunity to visit where one of us can teach/present more about plumbing engineering and plumbing design? Maybe the science classes need a guest speaker? Or maybe there's a career day in a classroom? The opportunities are endless! Only caveat here is that typically you are required to be a registered volunteer to be permitted to present or teach within a school district or associated county. Please let me know directly so I can coordinate. This helps our chapter in more ways than you can think, especially on the national level!
- 3) **ASPE Seeks Plumbing Design Experts to Help Develop PE Exam**
 - a) As part of the ASPE initiative to include a Plumbing/Piping exam module within the NCEES Mechanical Engineering suite of Professional Engineer exams, ASPE is seeking subject area experts to join in the development of the plumbing/piping exam. Please contact David Dexter, PE, FASPE, at plbgegr@gmail.com if you would like to volunteer.
- 4) ASPE's September Book of the Month is *ARCSA/ASPE/ANSI 78-2023: Stormwater Harvesting System Design for Direct End-Use Applications (eBook version)*.
 - a) Through **October 31, 2026**, you can purchase this eBook for **25% off** the regular member price. Just enter coupon code **aspeconvention** when you check out. The discount is valid on the digital edition of this publication and the coupon code can only be used once. If you are purchasing multiple items the discount will be applied only to the assigned publication.
- 5) **2026 ASPE Convention & Expo**
 - a) **October 8-14** at the Oklahoma City Convention Center in Oklahoma City, OK.
 - b) Convention October 8-14; Expo October 12-13.
 - c) Technical Education program has been released, October 13-14 only.
 - Up to 25 sessions to choose, each 0.125 CEUs.
 - Must have full registration to attend.

V.P. Education

Matthew Walker, P.E.

- 6) Winter 2026 MedGas Workshop
 - a) Self-paced online option is available through MedGasCards.com (partnered with ASPE).
 - It must be completed within 60 days of registration.
 - b) November 12-15, Thursday to Sunday, 8 AM - 5 PM each day.
 - Live, in-person event in Rosemont (Chicago), Illinois at ASPE HQ.
 - 32-hour workshop is based on the parameters outlined in ASSE 6060: Medical Gas Systems Designer, a new professional qualification standard that sets forth the training requirements for designers who wish to earn the ASSE 6060 personnel certification. 1.2 CEU upon completion.
 - c) ASPE Members \$2,000; Non-members \$2,350
- 7) MedGas Basics
 - a) ASPE Education website, On-demand
 - Following the success of the in-person and online MedGas Workshop and continuing to fulfill the commitment to training the next generation of medical gas system designers, ASPE is pleased to announce the new MedGas Basics course. The course contains four (4) instructional videos that you can review at your leisure, and each offer 0.1 CEU upon completion.
 - b) Bundle Price for ASPE Members \$150 or each individual class \$50.
- 8) Right-Sizing Tankless Water Heating Systems for Commercial Buildings
 - a) Live Webinar – November 12, Thursday, 1 PM – 2 PM
 - b) Learn how to right-size commercial tankless water heaters using real-world usage data. It contrasts traditional sizing methods, such as the modified Hunter's curve, with a data-backed approach that analyzes actual flow rates from thousands of connected facilities. By preventing over-sizing, this method reduces equipment costs, saves space, improves energy efficiency, and ensures reliable hot water delivery.
 - c) 0.1 CEU's
 - d) Free for ASPE members and \$50 for non-members.
- 9) As always you can find more ASPE educational information at <https://education.aspe.org/>
 - a) Read, Learn, Earn
 - **October 2026** is *Energy & resource Conservation in Plumbing* (0.1 CEU)
 - September 2026 was *Piping Systems* (0.1 CEU)
 - b) On-demand webinar list is continuously updated with many options to choose!
- 10) 2026 CPDT Exam
 - a) **October 26 - November 6**; Registration is open thru October 5.
 - b) You must fill out eligibility form to receive a link to register for exam.
 - Bachelor's degree in engineering with 1-years' experience designing plumbing systems
 - Associate's or Bachelor's degree in a field related to engineering (physics, mathematics, architecture, civil, environmental studies, construction, HVAC, etc.) and a minimum of two years of experience designing plumbing systems
 - 4 years minimum of plumbing design experience
 - c) Remote Proctored Exam
 - d) 3.5 hours, 100-question multiple-choice answer
 - e) ASPE Members \$225; Non-members \$450

V.P. Education

Matthew Walker, P.E.

11) 2027 CPD Exam TBD

- a) Spring 2027, Exam dates will be announced in November.
- b) You must fill out eligibility form to receive a link to register for exam.
 - Full ASPE membership or previously received approval to sit for the exam; or
 - A minimum of four years of experience in a position of responsibility for the design of plumbing systems and possess a bachelor's degree in a field related to engineering.
 - In lieu of an accredited degree, a candidate may substitute up to an additional four years of practical experience in the design of plumbing systems, for a total of eight years, or be granted a credit of one-half year of practical experience for each full year of education in an accredited curriculum related to plumbing engineering.
 - CPDT Certification counts toward one (1) year of experience.
- c) Remote Proctored Exam
- d) 3.5 hours, 100-question multiple-choice answer
- e) APSE Members \$450; Non-members \$675

12) GPD Program (Exam)

- a) On-Demand course completion followed by examination; however, must be completed within 6 months of start date.
- b) Open-note, 2 hours, 50-question multiple-choice answer
- c) 75% is passing score.
- d) 1.2 CEU credits
- e) ASPE Members \$500; Non-members \$600
- f) Note: Professional Engineers (PE) are eligible to take the GPD Program without having to take the CPD Exam as a prerequisite.

Reminders:

- If there are topics you would like to see or have presented at our chapter dinner meetings, please reach out to myself or Todd Rebhahn, CPD, our chapter VP Technical (vptechnical@wcf-aspe.com).
- OCTOBER DINNER MEETING IS CANCELED DUE TO CONFLICTS WITH THE 2026 ASPE CONVENTION & EXPO with several chapter members attending. It will not be rescheduled; however, the board is planning a special event around Halloween time to make up for the canceled dinner meeting...stay tuned for announcements!

Hope to see you all at the November dinner meeting and can't wait hear about the great time you all had and what you learned at the 2026 Convention & Expo in Oklahoma City.

Good luck to all the CPDT exam takers at the end of the month. I know you will all do well!

Also, I will unfortunately not be able to attend the 2026 ASPE Convention & Expo this year due to a family matter. Thank you to the WCF delegates for stepping up in my absence and I want to thank all members for your support during this process. I will be there in spirit! .

Please reach out to me for any additional questions regarding ASPE Education.

Cheers,

Matthew Walker, PE

PRECISELY ENGINEERED. REAL-WORLD TESTED.

Corzan® Material and Piping Solutions offer a complete tie-in to tap solution made up of Schedule 80 pipe & fittings, flanges, valves, and specialty adapter fittings including: MIP Threads x CPVC, FIP Threads x CPVC, Stub Out Elbows, and Male Sweat Adapters. Potable water systems designed with Corzan CPVC offer the best solution for reducing biofilm buildup and the growth of Legionella while being immune to degradation caused by standard disinfection procedures including Chlorine based disinfectants.

Performance Ratings

- Plenum rated for water distribution piping (ASTM E84-23)
- Conforms to NSF International Standards 61 and 14
- Withstands ANSI/ASHRAE Guideline 188 water treatment protocols
- Innately resistant to corrosion, pitting and scaling
- Resists biofilm that can lead to waterborne illness
- Pressure rated for temperatures up to 200°F

Diverse Applications

- Academic Buildings
- Multi-Family Housing
- Hotels
- Hospitals
- Data Centers
- Power Generation
- Wastewater Treatment Plants

COMBINING KNOWLEDGE, EXCELLENCE, INTEGRITY, & EXPERIENCE

Our mission is to develop cost-effective solutions that align with our Clients' unique business objectives. This is accomplished by investigating reasonable options to achieve the "Best Fit". We organize ourselves around our Clients' goals to become contributors to their success.

Our philosophy at Phoenix Engineering Group is to provide our Clients with professional engineering services that are affordable, innovative and appropriate. Our goal is client satisfaction achieved by ensuring that we understand the Clients' needs, wants, and concerns while providing work that is accurate, completed on schedule and within budget

Phoenix Engineering Group provides client-focused, value-oriented services, prepared with a practical appreciation of regulations, codes and modern practices. Phoenix Engineering Group's service offerings include:

- Feasibility Studies
- FDA, ISO, EU, USP and Building Code Compliance Reviews
- Basis of Design and Master Planning
- Mechanical, Electrical, Plumbing, Fire Protection and Process Engineering
- Construction and Permit Documentation
- Constructability Reviews
- Scheduling

ASPE Membership Value

When you join ASPE, you become part of a worldwide family of plumbing engineering and design professionals and gain immediate access to their combined technical knowledge and industry support. ASPE members are leaders in the plumbing engineering industry, and joining their ranks offers invaluable networking and career-advancement opportunities. Our members benefit from ASPE's international exposure, and our involvement in national and local legislative initiatives helps strongly convey the important role of plumbing engineers and designers in the construction industry.

In addition to sharing professional knowledge, ASPE members also like to have fun. Local ASPE Chapters and special-interest groups such as ASPE Young Professionals and Women of ASPE host social networking events throughout the year. With more than 6,300 ASPE members, a fellow professional is never far away.
